PROFILE

Telecommunications engineer and web developer. Client work: custom WordPress themes, WooCommerce stores and PHP plugins. Personal projects in TypeScript: a monitoring dashboard in Next.js and React, and Telegram bots in Node.js. Open to fullstack and web roles, remote.

EXPERIENCE

Freelance and Contract Web Developer

2024 – present

WordPress, WooCommerce, PHP · Remote

- Built, maintained and extended **12 production sites** for clients in Cuba, Spain, Uruguay, Guatemala and Canada: custom WordPress themes (ACF, Tailwind) and WooCommerce stores with local payment gateways and shipping plugins.
- Delivered multilingual sites (up to 7 languages) with Polylang or WPML, technical SEO with Rank Math and page-speed tuning.
- Custom plugins (10+): payment gateways, Woodofy extensions (shared multilingual inventory, analytics), shipping offers, payment routing and electronic-invoicing improvements, WebP conversion and S3 media offload tooling.
- Improvements and fixes to Woodofy, a WooCommerce plugin for Cuba (provinces, municipalities, shipping by weight and zone) shared by 3 stores in production.
- Ongoing support for live stores, including a ticketing shop with 4,500+ paid orders and 16,000+ tickets issued: electronic invoicing, coupon and benefit rules, Redis caching, security hardening, safe core and plugin updates.
- Open source: **500+ commits** to *claude-wp-builder* (tests, audit agents, commands, skills); sync-engine work in *ix-wp-envsync*.

OPEN SOURCE & PROJECTS

claude-wp-builder
